

PROFESSIONAL SUMMARY

CA Intermediate Candidate & BBA Finance Student with expertise in risk-adjusted valuations and 12-year longitudinal data analysis. Proven track record in identifying liquidity trends, ESG-linked cost savings, and operational risks through advanced financial benchmarking and Excel-driven audit reporting.

EDUCATION & PROFESSIONAL QUALIFICATIONS

Chartered Accountancy (CA), ICAI
BBA, Indra Gandhi Delhi Technical University for Women

Foundation Cleared | Inter Appeared (Result awaited)
 2023-2026 | CGPA: 7.9/10

SKILLS

Audit & Tax: Internal Controls, SAs, GST, Income Tax
Analysis: Ratio Benchmarking, VaR, Due Diligence
Risk: ESG Integration, Capital Budgeting, Stress-Testing

Valuation: 3-Stage DCF, WACC, CCA, Precedent Trans.
Tools: Adv. Excel, Pivot Tables, MS PowerPoint
Languages: English & Hindi (Professional)

PROFESSIONAL EXPERIENCE

Internal Auditor — AuditEngagement

Feb' 2026

NBFC Client, via CA Firm

- Tested **loan sanction workflows** against **RBI guidelines** and internal credit policy for an **NBFC-ICC**; identified deviations including **CIBIL score breaches**, **KYC/documentation gaps**, **LOS data integrity failures** (duplicate Lead IDs, incorrect Reloan flags), and eligibility violations across salary, age, and borrower-type criteria.
- Flagged **AML/CFT non-compliance**: absence of sanctions screening at onboarding in breach of **RBI (NBFC-KYC) Directions, 2025**; reported findings with annexures and recommendations.

Financial and Strategic Intern

Jun' 2025 – Aug' 2025

CrafixAdvisory

- Risk-Adjusted Valuation:** Developed 3-stage DCF models for early-stage firms, integrating ESG risk profiles to quantify WACC impact.
- Executed **ratio benchmarking** and financial statement analysis to identify liquidity risks and profitability trends for investment targets.
- Architected **automated Excel models** with advanced visualization, reducing manual data entry and streamlining client-ready reporting.

Business Development Intern

Nov' 2024 – Jan' 2025

Zotik

- Achieved **20% increase** in client engagement through targeted market assessments and process optimization protocols.

RESEARCH & PROJECTS

Full project portfolio: <https://srishty-bba.github.io/portfolio/>

CSR Expenditure & Financial Performance | Evidence from the IT Sector in India

Guided by Dr. Ankush Goyal, IGDTUW

- Conducted a longitudinal panel study (FY2019–25) on 11 Indian IT firms (5 large-cap, 6 mid-cap) using OLS regression grounded in Slack Resources Theory to examine whether CSR spend reflects strategic intent or statutory compliance.
- OLS model ($n=55$, Adj. $R^2=79.8\%$, $F=31.57$, $p<0.001$) found PAT the sole significant driver (coeff. $0.023 \approx 2\%$ mandate); ROA, RONW, NPM, and Revenue Growth were all statistically insignificant confirming compliance equilibrium.
- Identified structural distortions in mid-cap CSR ratios (Persistent Systems: 20.9% FY21 $\rightarrow$ 10% FY25) as rolling-average artefacts, not declining intent; recommended shifting MCA reporting from spend quantum to social-impact quality metrics.

ESG Metrics & Corporate Valuation | Strategic Analysis of the IT Sector

Guided by Dr. Priyamvada Mathur, IGDTUW

- Identified the research gap in traditional DCF models, their failure to price intangible ESG risks (data privacy, talent attrition) in IT firms and built a 4-step advisory framework linking BRSR/MSCI ratings to cash flow stability.
- Quantified a 14.3% EV/EBITDA valuation premium (15.75x vs. 13.78x) for ESG Leaders over average performers; demonstrated a 99 bps WACC reduction (10.91% vs. 11.90%) via sensitivity analysis on cost of equity and debt.
- Modelled an 18.95% total intrinsic value uplift driven by a dual mechanism: lower WACC (denominator effect) and higher terminal growth rate (+10 bps) from sustained ESG performance.
